To the public speaker the teeth are highly essential. The powers of eloquence are lost without these important organs.—DR. KNAPP is the man to remedy these defects.

New Subscribers.—We are pleased to acknowledge the receipt from our indefatigable General Agent, CAJ. B. F. JONES, of a list of sixteen Daily and thirty-three Weekly subscribers, all from the good old county of Carroll. The CLARION has been very liberally sustained from that part of the State in the past and we are glad to know they are not weary in well doing.

Mississippi Newspaper Changes.—Mr. C. H. Wilson has retired from the Eastern Star, now Editor. Mr. S. C. Theilgard being now sole proprietor and proprietor.

The Mississippi Democrat is the name of a new paper at Yazoo City—Col. Garnett Andrews, editor, and P. F. McGinley, publisher.

Mr. T. P. Lockwood, retires, in a graceful valedictory, from the editorial department of the Copiahian. Mr. J. F. Vance will continue as publisher.

Mr. Jas. C. Rogers has become a partner in the Tallahatchian, which journal has just entered upon its 7th volume.

Mr. S. Newton Berryhill, a sprightly and forcible writer, retires from the Southern Vindicator (Greensboro), and is succeeded by Mr. M. Lyon, also a writer of experience, and accustomed to newspaper labors.

MEDICAL AUTHORITIES have announced that not less than ONE-FIFTH of the entire population of the United States are afflicted with Neuralgia in some form. Surely the man who can safely remove such a vast aggregate of pain, is a great public benefactor. Such is Doctor Turner, of Boston, in Massachusetts. His UNIVERSAL NEURALGIA CURE is pronounced, on all hands to be an entirely harmless, and perfectly certain remedy for this most torturing of all known diseases. See advertisement in another column.

CURE FOR "HARD TIMES."—We see many of our young men fold their arms and sit down in idleness, because they have not the capital to engage in the kind of business they like, or, perhaps cannot get a clerkship, or a situation where they will not have to perform manual labor, or expose their delicate complexions to the rays of the sun.

Such young men are to be pitied. In times like this, when we need more producers in proportion to the consumers, and when the whole industrial system of the country is entirely unbalanced and deranged, every able bodied man should feel proud to work, and earn an independence in being able to "earn his bread by the sweat of his brow." Let them feel that there is dignity and honor in labor, and that now is the time to apply themselves to that labor which they must see, so much needs to be done.

Some of our greatest men commenced life as farm laborers, or at some mechanical trade, and none were ever known to express a regret at such a course. Let every young man determine to "eat no idle bread," but take hold of the plow and cultivate a few acres of corn, if nothing better presents.—All true men and women will honor them for it, and they will feel that they have done something for the benefit of themselves and the community in which they reside.

The Public Printing.

The approaching Convention appears to be exciting the truly loyal on the question of the rights of the public printing. Hardy, brother of John Hardy, editor of the Alabama Sentinel, the Radical organ at Montgomery, a very hungry and seedy loyalist, comes from the trouble to move from Alabama to Jackson, and proposes to publish a daily paper, and to print the State Treasury. The Alabama Sentinel to accommodate the Convention, Dugan, of the Republican, has the impression to consider himself already elected, and announces that he will on the day the convention meets commence the Daily State Journal. Smith, of the Chronicle, also puts a grab at the State Treasury, and puts his name forward as an aspirant for the Convention printing.

One of the truly loyal disciples have written enough to do the Convention printing, if elected, not money enough to publish a paper on the day the Convention meets, and proposes to publish a daily paper, and to print the State Treasury. Fancy the Di-may

Which would prevail in thousands of Households it should be suddenly announced throughout the United States, Canada, the West Indies and Spanish America that no more HOSTETTER'S BITTERS would be manufactured, and that henceforth the GRAND SPECIFIC FOR DYSPEPSIA, and preventive of all malarious diseases would be LOST TO THE WORLD! The bilious, the feeble, the despondent, the traveler, the voyager, the miner, the sedentary student, the settler on the frontier of civilization, the toiler, cooped up in crowded city tenements, the convalescent, needing an invigorant; the shivering victim of age, and the nervous of both sexes everywhere would learn, with grief, too deep for words, that the most celebrated corrective, invigorant and alterative of the age, had been blotted out of existence. As a PREPARATORY ANTIDOTE to epidemic disease, a genial stimulant, a promoter of constitutional vigor, an appetizer, a stomachic, and a remedy for nervous debility, no medical preparation has ever attained the reputation of HOSTETTER'S BITTERS. It is the HOUSEHOLD TONIC of the AMERICAN PEOPLE—has been so for twenty years, and in all human probability will be so for centuries to come. The magnates of Science recognize its merits; and that it is emphatically the medicine of the masses is proved by its vast and ever increasing sales.

Extract of a Letter From

PROVIDENCE, AILA, May 13, 1866.

DR. JOHN BULL: I send you \$30 for CEDRON BITTERS; please send what it will come to after paying the freight to Columbus, Miss. I have been troubled for several years with indigestion; have had to take pills every night for ten or fifteen years, and in January last was confined to my room the balance of the year; and, in fact, continued in a very weak and nervous condition until some two months since, when I was put under an operation, and I commenced improving right away, and am pretty well restored.

Yours truly,

A. L. NEAL.

I received this day the following, from Lancaster, Kentucky:

DR. JOHN BULL: Please send me in haste, for my own use, ONE DOZEN of your CEDRON BITTERS. I have tried them, and find them all you claim for them.

Yours respectfully,

G. W. SHINDLEBOWES.

Another Testimony.

BLOOMINGTON, ILL., Oct. 14, 1864.

DR. JOHN BULL: We made an arrangement with your agent, July 20, 1864, for selling your CEDRON BITTERS, and are about to do so. We want (one gross) twelve boxes more, without delay. We are introducing them readily, and they are doing a good business.

We wish to call the especial attention

of our readers to the advertisement in another column of the enterprising firm of James Riddle & Co., of Louisville, Ky. We do not wish or intend to recommend all the patent medicines that come along, "war wanted to cure all the ills that flesh is heir to," but when, as in this case, they are put out by men of long experience in the practice of the healing art, men of standing in the community in which they live, and when the medicines themselves have stood the test a quarter of a century, (as is the case at least with some of these,) and more especially when they do not claim to do too much, we cannot see why they might not be taken with especial diseases for which they are recommended, with at least as much probability as the prescription of a regular physician.

Coe's Cough Balm

will invariably cure the most deeply seated Cough or Cold, no instance of failure has ever been heard of.

Coe's Dyspepsia Cure, the great remedy for all diseases of the stomach.

Physicians endorse and use it. It cures Headache, Dizziness, Heartburn, Bad Breath, Cholera Morbus and other diseases too numerous to mention.

LYON'S FRAGRANT PECTORAL DROPS, the Great Remedy, for all respiratory affections, although so powerful and positive they are perfectly harmless, and may be used at all times not specially forbidden in the directions.

POLAND'S MAGIC BILIOUS POWDERS, a most wonderful cure and preventive of Fever and Ague. The cheapest remedy of the kind sold. Price only 50 cts. Sold in Jackson by

WHAT IS TARRANT'S EFFERVESCENT SELTZER WATER, and what are its effects? These are questions which the great American public has a right to ask, and it has a right to expect a candid and satisfactory reply. The preparation is a mild and gentle saline cathartic, alternative and tonic, and is most carefully prepared in the form of a snow white powder, containing all the wonderful medicinal properties of the far famed Seltzer Springs of Germany.

Of its effects, we would say that those who have tested the preparation are the best judges and the best authorities on the subject. It is most carefully prepared in the form of a snow white powder, containing all the wonderful medicinal properties of the far famed Seltzer Springs of Germany.
